DETAILED ACTION

Status of the Application

Receipt of the Preliminary Amendment filed 01/12/04 and the Information Disclosure Statements (IDS) filed 03/09/04, 07/02/04, 09/30/05, 01/30/06 and 10/05/06 is acknowledged.

Claims 1-24 are pending in this action. Claims 1-24 are rejected.

Inventorship

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-24 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-24 of copending Application No. 10/690,947. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claims 1-24 are directed to the same invention as that of claims 1-24 of commonly assigned copending Application No. 10/690,947. The issue of priority under 35 U.S.C. 102(g) and possibly 35 U.S.C. 102(f) of this single invention must be resolved.

Since the U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP Chapter 2300), the assignee is required to state which entity is the prior inventor of the conflicting subject matter. A terminal disclaimer has no effect in this situation since the basis for refusing more than one patent is priority of invention under 35 U.S.C. 102(f) or (g) and not an extension of monopoly.

Failure to comply with this requirement will result in a holding of abandonment of this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 1-24 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter.

Application No. 10/690,947 is evidence that the inventive entity claimed herein (Jane Hirsh; Roman Rariy; Shubha Chungi & Michael Heffernan) did not invent the claimed subject matter.

Application No. 10/690,947 contains the inventive entity (Jane Hirsh; Roman V. Rariy; Shubha Chungi; Michael Heffernan & Srinivas G. Rao). Srinivas G. Rao has not been included in the inventive entity.
